edominance of Buying Over Selling Covers Advance in Price List.

READING AGAIN VERY ACTIVE

lacidity of Money Market Drove Consideration of Gold Export Movement Into Background.

(By Associated Press.) NEW YORK, Feb. 2.—The speculative imper of the Stock Exchange changed day from the heavy tone of yesterd y. there was a resumption of confidence and there was a resumption of confidence in higher prices according to the evidence of the predominance of buying over selling in the market. Specific news was not assigned for the motive of the movement, general conditions being relied on to warrant the advance. Attention was/largely concentrated in Reading in which the professional operations centered. Various stocks with immediate or remote prospects o dividend increases were taken up professional operations centered. Various stocks with Immediate or remote prospects o dividend increases were taken up in the speculation. The spread of the influence of the Reading movement was not rapid, and some of the leading stocks on the list were sluggish and neglected through a great part of the day. This was especially true of the industrials. This small attention paid to the United States Steel stocks fixed this tende. On the frading. The coalers responded well to the Reading movement, and some of the high grade issues, which are in seamly supplied to the Reading movement, and some of the high grade issues, which are in seamly supplied to the reading movement, and some of the high grade issues, which are in seamly supplied to the reading movement, and some of the light grade issues, which are in seamly supplied to that class of stocks. The Southwestern stocks did well, including the southwestern stocks did well, including the movement in spite of the very moderate improvements in December not earnings, disclosed by the Harriman lines, Southern Pacific actually failing below the December level of the preceding year. The placifier of the monory market drow the consideration of the gold export movement into the background, although there is every prospect of its definite extension. There was practically no yielding in the sterling rate in this market. The moderately irregular tone of stocks at the close was due to light profit-taking on the day's advant. Total sales, par value, \$0.55.00. United States bonds were all inchanged on call. The total sales of stocks for the day were 120,300 shares.

MONEY AND EXCHANGE—CLOSE: Money on call firm at 13-4021-5 per cent; closing bid and offered at 2 per cent; time loans, steady; sixly days and ninely days, 3 per cent; six months, 31-4621-2 per cent; prime meroantile paper, 31-20 in the per cent. COTTON MARKET.

COTTON MARKET.

NEW YORK, Feb. 2.—The cotton market showed a still further improvement in point of activity with business more general than for some days past, Fluctuations were very irregular, however and the provided shown for some days past, Fluctuations were very irregular, however and the provided shown for some days and the provided shown for the session prices which the fluures of yesterday.

The opening was steady at an advance of 20 4 points. Some of the local scapers had so days the session would not respond to the American gains of the provious day, and covering by this condingent on the cables which were quite as high as looked for, caused the initial buige. There was heavy realizing at the advance, but there were often buying orders from ompide sources in the hands of wire houses, and after some measuration the market advances with first and ing about 10gH points for the provided should be supported to the morning. Many of those who had bought at the low level of last week and saw a profit of heavy had a cent a pound at the morning's prices, took profits on the theory that advance would lead to increased spot offerings, and when the larger holders saw the fluudiation in progress they evidently started feeling for the top. In the afternoon many private wires were circuited to line of increased spot offerings in the South, Ann lours, coursed by expectation of increased in the fluid and to increased in the fluid and to high by the course of the top. In the afternoon many private wires were circuited telling of increased spot offerings in the South, and the results of the course of the cour

SEABOARD MINORITY WILL MEET ON MONDAY

Rumor That Protective Committee Will be Dissolved Emphatically Denied.

(Special to The Times-Dispatch.)

(RADTIMORE, MD., Feb. 2.—A development that local financial circles are now looking for is the dissolution of the Protective Committee of Seshourd Air-Line Rallway stockholders. Runiors were rife to-day that some of the atook represented by this committee had been deposited under the Bair-Ryan plan. Miles for that chairman of the committee morning, was, then too the Carrenger of the work of evidently some difference of opinion among members of this committee, but one of the representatives denied emplatically over. There is overleastly some difference of opinion among members of this committee, but one of the representatives denied emplatically that the committee would be dissolved. He said:

"The position of the committee is that it will not Join any opposition to the Biair-Ryan plan, and will either deposit its holdings or sell them in block."

The frequent visits of some of the members of this committee to New York, have been for

them in block."

The frequent visits of some of the members of this committee to New York, have been for the purpose of conferring with would be purchasers and with the Blair-Ryan interests. It is the expectation that the new manufact plan will be followed by some changes in the directorate of the Seabourd, and several members of the Protective Committee have been talked of as candidates for postions on the board.

lord.

It is understood, however, that the Blair-Ryan Interests would not make any agreement to allow the committee to nominate any directors, although it is expected that one or more Baltimoreans, including Mr. S. Davies Warfield will be on the board.

Among the names that have been presented as Baltimore representatives are Mesers. Townand Scott, Frank S. Hambleton and B. N. Balter. Door, at Public Auction.

By direction of parties in interest, I will, on TUESDAY, February 21, 1905, at noon, on the premises, regardless of weather, sell at public auction, to the highest bidder, that magnificent business property, known as the Talbott Machina Works, fronting on south side of Cary Street, between Fifteenth and Seventeenth Streets, 34, 12; feet.

It will be first offered in four parcels, in order following; and then offered as a whole, and will be knocked out to the party or parties making the highest bid.

Lot 1. Commences at the Western boundary of the property and runs east 108, 12 feet, and extends back between irregular lines about 237 feet to Dock Street and to the spur track of the Southern Rallway. In this lot is included a lot fronting 27 feet on Dock Street, which extends back to a point about 256 feet, and is separated from the main portion by the Seaboard viaduct, but there is right of way between the two. On this parcel is the three-story brick building formerly occupied as the office, the large brick foundry building, 135 feet 10 inches by 54 feet 9 inches, besides the two-story structure on the front.

Lot No. 2. Front S3-12 feet on Cary Street, and extends back 100 feet, which is entirely covered by a brick building to an alley 29 feet 11 inches wide, along which is the Southern Rallway track.

Lot No. 3. Front S3-12 feet on Cary Street, and also extends back to the alley, on which are substantial improvements.

The property has been sub-divided according to the partition walls and in a manner which will entail the least expense in making each division complete in itself. Two of these parcels can, with very small outlay, be made excelented and quite strong enough feet ingit machinery.

As is well known, this property is subject to occasional overflows, the records of which can be had on application to me.

Some Battimore stockholders have also urged the solection of Mr. H. Hisman Duvall, the forman Duvall, the forman Duvall, the forman development of the Florida Contral and Particular Italiroad.

A full meeting of the committee appointed by the stockholders of the Saebaard Air-Lino Railway Company, at a meeting held at the ilotel Belvedere on January 26th, was hell to-day at the office of Messrs. Gans and Haman. The committee consists of Mr. C. Morton Stewart, Mr. James L. Sellman, Mr. C. Rubistrat, Mr. John Skelton Williams and Mr. B. Howard Haman.

A meeting of the stockholders represented by the committee will be asked to convene on Monday. February 5th, where C. Ill report will be made to the stackholders, and such action will be taken us the stockholders may recommend.

January Failures.

January Failures.

Commercial insolvencies in the United States, as reported by R. G. Dun & Co., were encouragingly few in number and small in amount of defaulted indebtedness during the opening month of the understanding defaulted indebtedness during the opening month of the understanding defaulting the opening month of the understanding defaulting the opening month of the understanding defaulting the opening month of the understanding cocupations only 256 suspensions occurred, with liabilities of \$5,275,640, compares with 1.075 a year ago involving \$5,224,387; other commercial failures were 27 for \$462,873, against \$64 last year for \$2,571,600, an aggregate of 1,222 failures and \$10,417,205 liabilities as compared with 1.495 in the corresponding month of 1964, when defaulted indebtedness roso to \$18,483,873. While it is extremely gratifying to find that 1905 has started with a decrease of \$5,600,000 in amount of liabilities as compared with the provious year. It is still more cheering to carry the comparison much further back. Only one they are the opening to the provious of the opening to carry the comparison much further back. Only one they are both of the started with a decrease of \$5,600,000 in amount of liabilities as compared with the provious year. It is still more cheering to carry the comparison much further back. Only one they are the started with a decrease of \$5,600,000 in amounts of liabilities as compared with the provious of all still more cheering to carry the comparison much further back. Only one they are the still the provious of the provious of a started with a decrease of \$5,600,000 in amounts of liabilities as compared with the provious of liabilities as compared with the provious of the year. It is still more cheering to carry the started with a decrease of \$5,600,000 in amounts of liabilities and the still manual provious of the year. Use of Oil in the West. Use of Oil in the week.

Millons of gallons of Colorado oil are
to be utilized by the Denver and Rio
Grando Railroad for laying the dust
along its lines. The first experiments will
be made along the road from Denver to
Salt Lake City. As about 4,000 gallons of
oil are required to the mile, the petroleum
industry will receive quite an impotus in
the Centennial State.

Poisonous Fish.

In the rivers of some of the West Indian Islands there abount fish which it would be deadly polson for Europeans to eat, but which the natives find a nourishing and enjoyable diet. In parts of New Zealand there grows a sort of orange which no one but a native can eat without becoming very ill, while two would probably polson the average European.

Bad Trees for Windy Country.

Among the trees that are most sensi-

Among the trees that are most sensitive to the wind are the cherry, the pium, the walnut, the black poplar, the service tiec the chi and certain varieties of pine. Other pines, especially the mountain varieties, and also certain firs, are very resistant to wind.
